

FEBRUARY 19TH

# Mrs. Wood's 3rd Grade

## this week

### • READING:

We are reading expository texts about animals and their different adaptations that help them survive.

### • WRITING:

We will be working on our own expository text about an animal and the adaptations that make our animal special. We will be creating a brochure for our animal on our chromebooks.

### • MATH:

We just started our module on fractions! We have started partitioning fractions into equal parts and naming the fractional units.

### • SCIENCE

We are still discussing heredity, survival, and selection. We have discussed how selection has allowed us to have many different species of animals and plants.

## at home reminders

Thank you all for the donations for our Valentine's Day party! As always, we couldn't do this without you!

I have sent out a link to sign up for spring conferences. Please contact me if you didn't get it or need to meet a different time. Thanks!

*Please continue working on skip-counting and multiplication facts at home. These are so important for the students to know as we continue working on them at school.*

## important dates

March 5th - Conferences (Wood Class Only)

March 6th - Half Day/Conferences

March 7th - Conferences (No Wood)

March 8th - Half Day

March 11th - No School

March 29th - April 5th - Spring Break

\*\* Conference dates will be changing for our class only as I will be gone at a conference.
