

March 15 Classroom Update

Mr. Groenenboom's Third Grade Class

IXL: We have passed our latest goal of mastering 2,500 skills as a class!

Math: We finished up our latest unit, measuring and find the area of rectangles and complex shapes. We are now learning about fractions and will be starting our Fraction Olympics next week.

ELA: We wrapped up our unit, "What inspires us." We read poetry and stories of people that inspire others. As part of this unit we got inspired by Buc-ee's. We wrote letters to the owner and were rewarded with gift bags sent to our class.

Other news: We are reading about Michigan's resources and things made in Michigan. We are attempting to collect and make our own Maple Syrup.

Thank you to everybody that came to conferences!
